

Kitten Gloop

This is a recipe for Kitten Milk Replacer!

- 1 package of unflavored gelatin
- 2 Tbs mayonnaise
- 2 Tbs vanilla or plain yogurt (use full fat varieties when possible and kittens tend to like the vanilla sweetness over the plain flavor)
- 1 Tbs corn syrup (do not substitute honey)
- 1 egg yolk
- 1 can of evaporated milk

Mix gelatin with 12 oz. boiling water and set aside until dissolved. Whisk remaining ingredients together, add gelatin/water mixture and whisk. Refrigerate. When ready to use, microwave small amount until very warm, but NOT hot. Pour into a bottle and feed.
